

## ACT I & ACT II Modelling

### Some Essential Details

Environment: pumpkin carriage, forest, bell tower, palace.

Bedroom: bed, bedside table, a picture frame on the bedside table, wind chimes by the window, toy rabbit, mirror, fairy tale book, vine.

### Cautions

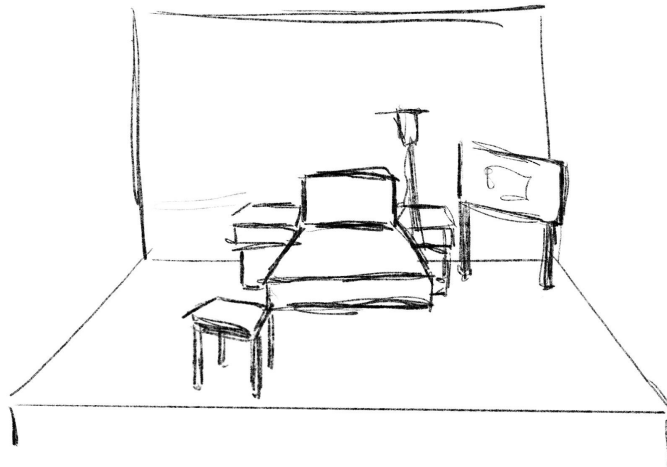

1. Avoid steps, use ramps
2. Considering the combination of real and virtual, the relationship between the positions in the bedroom should take into account the position of the stage props.
3. Reduce the hollowing of the carriage and leave a window.

### Moodboard

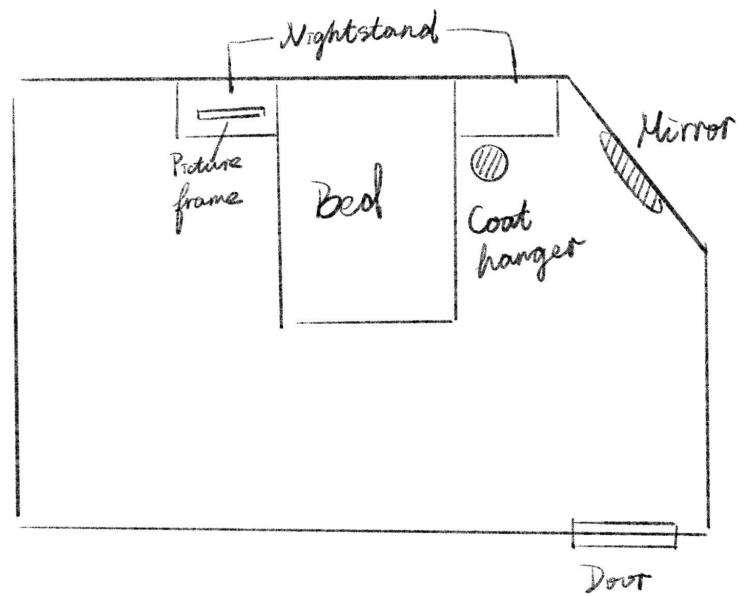

## Spatial Relationship

Stage

Bedroom (Still need to consider interaction details before updating)
